DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 23 is rejected under 35 U.S.C. 102(b) as being anticipated by Tamai et al. (Japan, 670).

Tamai et al. discloses a photoconductive medium 13; and a developing unit 1 having a toner receptacle, a developing roller 7, supplying the toner to the photoconductive medium 13, a toner supplying roller 6 having a fur brush disposed around a circumference thereof to supply toner contained in the toner receptacle to the developer roller 7, and a cleaning unit 9 that flicks or shakes excess toner from the fur of toner supplying roller 6. Note abstract.

Response to Arguments

Applicant's arguments with respect to claim 23 have been considered but are moot in view of the new ground(s) of rejection.
